Parent Corner

Children crave time with their parents. It makes them feel special. Parents are encouraged to find time to spend playing with their kids on a regular basis. This should include one to one with each child and group time with all of the adults and kids in the home. In pretend play, let the child develop the theme. Get into their world. Let them go with it. Ask questions. Play along. Be silly along with them and have fun. Parents can use stuffed animals or puppets to act out real-life situations that can teach problem solving or social skills. Playing with kids builds a bond that will last forever. It lets the child know he or she is loved and appreciated. It opens the door for sharing problems and concerns when the need arises. It helps the parent get to know and under the uniqueness of each child. It is also great stress reducer for overworked parents
